SUMMARY

Motivated software engineer with 6 months of industry experience in Laravel and PHP development, seeking an Associate Software Engineer position. Skilled in building scalable and secure web applications, with hands-on expertise in performance optimization, caching, queue systems, and scheduling. Proficient in MySQL, MongoDB, and Redis, with a strong focus on clean code, PSR-12 standards, and PHPUnit testing. A collaborative team player experienced in Agile environments and committed to delivering high-quality software solutions.

KEY SKILLS

- **Backend:** Laravel, PHP, RESTful APIs, MVC Architecture
- **Frontend:** HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS, jQuery, AJAX
- **Databases & Caching:** MySQL, MongoDB, Redis
- **Tools & Workflow:** Git and GitLab, Jira, Postman
- **Testing & Standards:** PHPUnit, PSR-12 Coding Standards
- **Development Practices:** Agile
- **Soft Skills:** Team Collaboration, Communication, Problem-Solving, Debugging, Fast Learner, SEO

EDUCATION QUALIFICATION

Bachelor of Information and Communication Technology (Honours)

University of Ruhuna (*Awaiting Final Results*) – *Current GPA: 3.52/4.0*

- Major: Web Development
- Relevant Coursework: Software Engineering, Database Management, Human-Computer Interaction

RESEARCH

A Hybrid Machine Learning Model for Comprehensive Coconut Classification Using Image Processing and Vibration Analysis for CRIC 60 and CRIC 65 Varieties

2025 - 2026

CERTIFICATIONS

Complete 2024 Web Development Bootcamp (Udemy)	2024
Assured Diploma in English (<i>Esoft Metro Campus</i>)	2019

TECHNICAL PROJECTS

Tools Web App [\[Video\]](#)

2026

Laravel, MySQL, Tailwind CSS

- Developed an online platform with multiple web-based tools, allowing users to access utilities easily and fully customize the website through the admin dashboard.

Classified Ads Web Application

2026 – Present

Laravel/PHP, MySQL, Stripe/PayPal API

- Built an online platform for posting and browsing classified ads, with secure payment integration and full website customization through the admin dashboard.

Forex Institute Course Platform

2025

Laravel, Tailwind CSS

- Developed an online course platform for browsing, purchasing, and completing courses, with student progress tracking, downloadable materials, and an admin dashboard for managing content and payments.

Order Processing System [\[Video\]](#)

2024

Flutter, Laravel, Node.js & Express.js

- Developed an Order Processing System with a Flutter mobile app, Laravel web dashboard, and Node.js API to manage orders, stock, delivery tracking, and reporting efficiently.

WORKING EXPERIENCE

[iLabs PVT](#) (Laravel Engineer Intern)

Project: Cloud of Goods

Jul 2025 – Jan 2026 · Colombo, Sri Lanka · On-site

Technologies: Laravel, PHP, JavaScript (jQuery, Ajax), Redis, MySQL, Bootstrap, Go Lang (Microservices), GitLab, Jira

Key Contributions:

- Developed and maintained a live, high-performing web application generating revenue for the company.
- Implemented Laravel features such as caching, queues, scheduled tasks, and security optimizations for enterprise-level performance.
- Ensured code quality with PSR-12 standards, clean architecture, and PHP Unit testing.
- Optimized system performance and applied security best practices for a scalable, production-ready platform.
- Collaborated effectively in a pod-based team structure, enhancing teamwork, communication, and project delivery.

LANGUAGES

- **English** - Intermediate (Reading, Writing, Speaking)
- **Sinhala** - Native proficiency
